

Oil Field Environmental Incident Summary

Incident: 20140703222842

Date/Time of Notice: 07/03/2014 22:28

Responsible Party: CONTINENTAL RESOURCES, INC.

Well Operator: CONTINENTAL RESOURCES, INC.

Well Name: MORRIS 2-26H

Field Name: OAKDALE

Well File #: 18860

Date Incident: 7/3/2014

Time Incident: 09:00

Facility ID Number:

County: DUNN

Twp: 147

Rng: 96

Sec: 26

Qtr: SW

Location Description:

Submitted By: Todd Senescall

Received By:

Contact Person: Todd Boepple

PO BOX 268870

OKLAHOMA CITY, OK 73126

General Land Use: Pasture

Affected Medium: Topsoil

Distance Nearest Occupied Building:

Distance Nearest Water Well:

Type of Incident: Other

Release Contained in Dike: No

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil	2	Barrels	1.5	Barrels	1.5	barrels
Brine	0.4	Barrels	0.3	Barrels	0.3	barrels

Other

Description of Other Released Contaminant:

Inspected:

Written Report Received: 12/7/2016

Clean Up Concluded: 7/4/2014

Risk Evaluation:

explosive atmosphere

Areal Extent:

Approx. 1 acre of pasture and trees was lightly misted.

Potential Environmental Impacts:

soil, vegetation

Action Taken or Planned:

Well shut in. Standing liquid sucked up. A temporary berm was made around the area on location with the heaviest misting until that soil on is removed and equipment is steamed off. Misted grass is being mowed and bagged. Misted trees will be sprayed with S-200. The polish rod and stuffing will be replaced.

Wastes Disposal Location: TBD, likely Chimney Butte

Agencies Involved:**Updates**

Date: 7/6/2014 **Status:** Reviewed - Follow-up Required

Author: Roberts, Kris

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Release, due to unspecified cause, sprayed off location into pasture and on to trees. Followup is necessary. Determine if pasture has livestock in it at this time. Recommend fencing off the area until cleanup complete and confirmation sample results are reviewed.

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

The weather was 78°F, clear, hazy, with wind from the southeast 5 to 10 miles per hour. The oil sprayed northeast of pad. The pooled liquid has been cleaned up and impacted pad soil has been cleaned. The oil spray mostly went on trees located in a coulee. The grass that was sprayed has been mowed, and the clippings have been removed. I did not see any animals near the sprayed area, and grass to the west side of pad has not been grazed recently. However, there were cattle on the east side of a pasture when I came in from the east. More followup is needed to check on the vegetation growth.

Date: 5/13/2015 **Status:** Inspection

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

I arrived at the site at 13:10 p.m. The weather was partly cloudy, 48°F, with the wind from the southeast 5-10 mph. The area that was sprayed is coming back. The trees and underbrush is leafing out. There are a couple of areas covered by soil eroded from the pad. No further followup needed at this time.
